PROVIDER OF TOP QUALITY SCAFFOLDING AND ACCESS

From minor repairs
to major works

ALL TRADES

At Allscraf Access we take pride in our ability to service "all trades". The expression "no job too small or too large" certainly applies to us.

Whether you need to install a new light over a set of stairs, repair some guttering or paint the gable of a house, we have the experience and equipment to assist.

During our 30 years in business, we have faced a variety of challenges, which has given us the expertise to tackle every job from the most simple to the very complex.

Every project is unique and requires a tailored approach using the right selection of equipment. Our range of equipment includes, Mobile scaffolds, Aliwedge (aluminium) and Steel system scaffolds. When these products are combined with our specialised accessories, areas that are difficult to reach can be easily accessed.

Allscraf Access has been used in shopping centres, high rise buildings and houses to assist plasterers, fire sprinkler contractors, painters and plumbers. We have a fleet of trucks and utes so we can offer a prompt and reliable service.

Trades:

- Blocklayers
- Bricklayers
- Carpenters
- Ceiling fixers
- Cold-room erectors
- Concrete repairers
- Electricians
- Fencers
- Fire Sprinkler Installers
- Gas fitters
- Glaziers
- Painters
- Plasterers
- Plumbers
- Renderers
- Roofers
- Sign writers
- Wall cladding

PROVIDER OF TOP QUALITY SCAFFOLDING AND ACCESS

Specialised
equipment and over
30 years' experience

INDUSTRIAL MAINTENANCE

Allscaf Access provides tailor-made solutions for the Industrial Sector combining our various aluminium and steel systems with our engineered accessories to assist our clients with plant breakdowns and ongoing maintenance.

Our existing contracts with major processing plants have Allscaf Access geared for the unusual and complex jobs. No two jobs are the same so the experience gained from our current clients enables us to respond quickly and efficiently.

Our design team and experienced scaffold staff use our "Aliwedge" System (Aluminium Kwikstage) and specialised accessories to create 'Cantilever', 'Drop' and 'Birdcage' Scaffolds. All scaffolds are designed and installed with all the required safety documentation and approvals. We realise the downtime associated with breakdowns and maintenance is costly, so to fit in with your schedule our dedicated team can work out of normal hours or on weekends if required.

We have designed scaffolding maintenance solutions for:

- Meat + food processing plants
- Rail bridge maintenance
- Electrical sub stations
- Oil + gas refineries.
- Sewage waste facilities
- Communication towers
- Major Queensland power stations

Designs used:

- Cantilever scaffolds
- Birdcage scaffolds
- Drop scaffolds
- Mobile scaffolds

RESIDENTIAL

Allscaf Access designs, delivers and erects scaffolding for the residential market. It caters for new builds, extensions and renovations using both steel and aluminium scaffold systems.

Whether it is a standard brick home or an architectural masterpiece on a small block Allscaf Access can utilise one of its scaffold systems to install a safe, well designed scaffold, so all trades can perform their work.

Using our Aliwedge System (Aluminium Kwikstage) we can step seamlessly from ground level to a lower roof to allow access and 'roof fall' protection. This system allows for 'walkthru' work areas without any obstructions. For brickwork or blockwork our Steel Kwikstage System is a proven safe, reliable and robust scaffold.

Safety is paramount for every project we design and build. Allscaf Access prepares a safety assessment and provides compliant documentation and drawings specific to that project.

COMMERCIAL

Allscaf Access provides a complete and professional service for the larger construction industry. These projects include apartment blocks, universities, schools, aged care, government and commercial buildings.

At Allscaf Access our professional and experienced designers, estimators and scaffold crews understand the time and safety requirements of larger building projects. Our scaffold solutions ensure that your project stays on track and budget.

Aliwedge (aluminium) System Scaffold
Innovative, Versatile and Medium-duty

Steel System Scaffold
Australia's most popular 'Heavy-duty' Steel System

Aluminium Mobile Scaffold
Easy-to-use, Adjustable and Mobile
